Special sizes on demand!

Scope of delivery vario 32 :

- Multi-piece aluminum frame
- Screen material incl. 5 cm wide black reinforced border and snap fasteners
- 1 pair of T-legs
- Thumb screws in yellow bag
- Bag for projection screen in black
- Softbag with wheels
- Manual

Short description:

Scope of delivery vario 64 :

- Multi-piece aluminum frame
- Screen material incl. 10 cm wide black reinforced border and snap fasteners
- 1 pair of AT32/64-legs
- fixing clamps
- Thumb screws in yellow bag
- Bag for projection screen in black
- Softbag with wheels
- Manual

Vario 32:

Multi-piece aluminum frame, plug-in system (32 x 32-mm profile), incl. 1 pair of T-legs and thumb screws for connecting frame and leg, softbag with wheels. Elastic screen material incl. 5 cm reinforced black border and snap fasteners incl. bag, attachment of screen material to frame by means of snap fasteners.
Front projection screen material Flex White CI - 100% light-tight, cleanable, flame resistant.
Gain factor: 1.02, viewing angle: +/- 50°
Rear projection screen material – Flex Rear CI or Flex Rear MO – cleanable, flame resistant.
Gain factor: 1.18 or 2.25, viewing angle: +/- 45°
Size of projection area (image dimensions): ____x____ cm, W x H
Frame size (outer dimensions): ____x____ cm, W x H
Manufacturer: AV Stumpfl
Type: Vario 32

Vario 64:

Multi-piece aluminum frame, plug-in system (64 x 32-mm profile), incl. 1 pair of AT32/64-legs, fixing clamps and wing screws for connecting frame and legs, softbag(s) with wheels. Elastic screen material incl. 10 cm wide black reinforced border and snap fasteners incl. bag; attachment of screen material to frame by means of snap fasteners.
Front projection screen material Flex White CI - 100% light-tight, cleanable, flame resistant.
Gain factor: 1.02, viewing angle: +/- 50°
Rear projection screen material (10 cm wide reinforced black border) - Flex Rear CI or Flex Rear MO - cleanable, flame resistant.
Gain factor: 1.18 or 2.25, viewing angle: +/- 45°
Size of projection area (image dimensions): ____x____ cm, W x H
Frame size (outer dimensions): ____x____ cm, W x H
Manufacturer: AV Stumpfl
Type: Vario 64

Edition 2011-12. We reserve the right to make modifications in the interest of technical progress.

made in austria/europe
5 years' warranty
simple to set up
one basic frame - various sizes
no tools required
low transport volume
long-term stability
brilliant image quality

Vario - one frame, various sizes, made to measure.

Variety in use and flexibility distinguish the modular building block frame system VARIO – one basic frame can be used for a variety of different screen sizes. You only need the corresponding screen material and the necessary extension parts. Additional central supports allow image widths of more than 25 m. Stability, weight and transport volume have been optimized and are in perfect harmony. To ensure optimum packing for each size we have developed two types of profiles made of hardened aluminum alloy - VARIO 32 and VARIO 64.

Easy assembly - no tools required.

Statically optimized frame connectors for VARIO 32 and VARIO 64

Shear joints on the inside guarantee highest frame stability.

One frame – various sizes
Extension set for additional screen format

The modular plug-in frame system

The packed frame convinces through its low transport volume.

Lay out the marked frame elements and connect them.

The elastic screen material is placed on the frame and attached to the frame via snap fasteners. The supplied legs are then fixed to the rear of the frame by means of wing screws.

Aluminium profiles

Made of special extruded and hardened aluminum alloy.

vario **32**^{bm}

Standard profile 32 x 32 mm (1 1/4" x 1 1/4"). This profile is used for standard formats up to 450 x 335 cm.

vario **64**^{bm}

Standard profile 64 x 32 mm (2 1/2 " x 1 1/4 "). Statically optimized, this truss style profile is used as a standard profile for standard formats up to 800 x 600 cm.

Standard screen material

The screen materials that are standard supply have proven their worth all over the world in professional applications by showing long-term stability, strength and brilliant image quality.

Front projection screen material FLEX WHITE CI
100% light-tight
Seamless for lengths of up to 210 cm
Weight: ~ 295 g/m²
Thickness: ~ 0.22 mm
Gain factor: 1.02

Rear projection screen material FLEX REAR CI
Virtually no „hot spot“ formation
Seamless for lengths up to 210 cm (Optional Seamless Optics™ for lengths exceeding 210 cm)
Weight: ~ 370 g/m²
Thickness: ~ 0.28 mm
Gain factor: 1.18

Rear projection screen material FLEX REAR MO
Seamless for lengths up to 305 cm
Weight: ~ 380 g/m²
Thickness: ~ 0.28 mm
Gain factor: 2.25

Optional versions

Depending on application and requirements there are 5 different folding legs available:

T32-Leg:
Overall height: 220 cm,
min. mounting height: 6 cm,
max. mounting height: 82 cm
Standard supply

vario **32**^{bm}

AT32-Leg:
Overall height: 320 cm,
min. mounting height: 6 cm,
max. mounting height: 113 cm

AT32/64-Leg:
Overall height: 430 cm,
min. mounting height: 9 cm,
max. mounting height: 146 cm,
Standard supply

vario **64**^{bm}

AT48-Leg:
Overall height: 415 cm,
min. mounting height: 9 cm,
max. mounting height: 161 cm

AT64-Leg:
Overall height: 550 cm,
min. mounting height: 9 cm,
max. mounting height: 176 cm

InviSnap™

This new and patented way of mounting the screen material offers a level projection screen without visible snap fastener heads.

Screen materials

Wide choice of projection materials and border variants.

Snap fasteners, edge reinforcement, border widths

There is a variety of snap fasteners, reinforced border in black and white and border widths of 5 cm, 7.5 cm and 10 cm available.

Transport cases with buckle belt

The stockable and sturdy flight cases with integrated rollers are available in two sizes. The woven strap with a buckle belt, well known from the aircraft industry, ensures maximum safety and stability.

Seamless Optics™

Welded seams are standard for larger screen surfaces and do not cause any problems for projection (III. 1). A special welding procedure allows production of homogeneous display areas with a seamless look (III. 2).

Frame design

Frame and legs are also available anodized in black. This „look“ is particularly suitable for hotels, concert halls, stages and exhibitions.

Easy Fly™ for VARIO 32 and VARIO 64

The adapter with eyelet can be attached quickly and easily at any point. Only applicable with VarioLock or screw connection. For use as Flying Screen.

VARIO Lock

For super-fast locking of the connector in system VARIO 64.

Screw connection

For securing the plug-in connection in system VARIO 32 and VARIO 64.
